All together we had 8 local workshops. One in Ljubljana, one online, and four in Ljubljana. Our workshops were spread from march till June. In Postojna, we were in Srednja gozdarska, lesarska in zdravstvena šola Postojna. In the online edition we had university students from the philosophical faculty and the faculty of social science. In Ljubljana we had two workshops in middle school Ledina and one with Mladi zmaji – youth center for out of school activities. We also had the pleasure of working with kids who sought asylum in Slovenia from other countries. The youngsters that participated were between 12 and 21 years old.

The workshops were separated into two parts. The first one was an introduction to the European Union (EU), what it is, what it does, and what kind of authority it has, because it is important to understand that to be able to work on the demands. We played a game where our participants tried to figure out who had the decision making power on different topics. At the end of the presentation they asked and we answered all their questions about the EU

We worked on seven topics together:

- EDUCATION,
- SOCIAL SECURITY,
- WORK AND ECONOMY,
- FREE TIME,
- HUMAN RIGHTS AND ACTIVE CITIZENSHIP,
- PUBLIC AND PHYSICAL HEALTH,
- MOBILITY AND INTEGRATION,
- CULTURAL HERITAGE.

After the EU presentation, youngsters had the opportunity to write their ideas on either a write paper or during the online session on the application of Jumbboard and the methodology of World coffee.

Finally every group presented their work!

Kulturna dediščina

After the workshop concluded, the students were invited to provide general feedback. The response from the students was overwhelmingly positive, indicating a high level of satisfaction.

Following the workshop, we asked about the students' interest in participating in upcoming national and European conferences to continue addressing the issues discussed. The number of students expressing interest surpassed our expectations, demonstrating excitement in all youngsters to further their participation.

Additionally, a questionnaire was sent to their emails so that they would be able to answer some more questions.
